Noida, India

EDUCATION

Sona Devi University (SDU)   Ghatsila, Jharkhand
Master of Computer Applications (MCA)   Dec 2025

TECHNICAL SKILLS

Programming Languages: JavaScript, HTML, CSS,
Frameworks & Libraries: ReactJS, Redux, Node.js, Express.js, Bootstrap, Tailwind CSS
Developer Tools: VS Code, Git, GitHub, npm, Webpack
Core Competencies: Responsive Web Design, RESTful APIs, Frontend Architecture, UI/UX Implementation
AI Tools: ChatGPT, Google Gemini (for code optimization and debugging)

PROFESSIONAL EXPERIENCE

Frontend Developer Intern   Sep 2024 – Nov 2025
Cybite   Remote

- Engineered responsive and accessible web interfaces using React.js, HTML, CSS, and JavaScript, ensuring cross-browser compatibility and optimal performance across desktop, tablet, and mobile devices
- Implemented modern JavaScript frameworks including React hooks, Redux for state management, and component-based architecture to build scalable and maintainable web applications
- Collaborated with cross-functional teams using Git/GitHub for version control, participating in code reviews and implementing feedback to improve code quality and development workflows
- Optimized website performance through code splitting, lazy loading, and efficient DOM manipulation, reducing page load times and improving user experience metrics

PROJECTS

Professional Portfolio Website | *React, JavaScript, Tailwind CSS, Git*

- Developed a fully responsive portfolio website with modern UI/UX design principles, featuring smooth scrolling navigation, animated transitions, and optimized performance across all device sizes
- Implemented reusable React components with props and state management to showcase projects, skills, and work experience in an organized and visually appealing manner
- Utilized Tailwind CSS for rapid UI development and maintained consistent design system throughout the application

E-Commerce Shoes Website | *React, JavaScript, CSS, Responsive Design*

- Built a dynamic e-commerce platform with product listings, filtering capabilities, and responsive grid layouts optimized for various screen sizes and devices
- Designed intuitive user interface with focus on user experience, incorporating modern design trends, smooth animations, and interactive elements to enhance customer engagement
- Implemented component-based architecture following React best practices for code reusability and maintainability

Resume Builder Application | *React, JavaScript, HTML, CSS, State Management*

- Created an interactive resume builder tool allowing users to input their information through dynamic forms and generate professionally formatted resumes in real-time
- Engineered responsive design ensuring seamless functionality across desktop, tablet, and mobile platforms with consistent user experience
- Leveraged React state management and controlled components to handle complex form inputs and real-time preview updates

Authentication Login System | *React, Form Validation, Component Design*

- Developed secure login form component with email and password input fields, implementing client-side validation and error handling for enhanced user experience
- Integrated form submission handlers and authentication logic using React hooks (useState, useEffect) following modern React patterns
